

# HARD TO EXPLAIN.

## If This Had Occurred Anywhere Else Than in Shenandoah, There Might Be Grave Doubts About It.

If this were published anywhere else than in Shenandoah, that is if the statement given below went the rounds of the press, readers in Boston or New Orleans would not believe it. In the very nature of things men and women will not believe that a simple little pill would have any effect on humanity when the subject is in a serious condition. When it has that effect, when the party is a living witness, perhaps a neighbor, or Shenandoah people at least, cannot possibly deny it. Particularly so when investigation is conducted. Now ask Mrs. Petrick McNeal of 121 North Main street, if she will not corroborate personally what she says publicly. She says: "I was very miserable for a winter, and had trouble all the time with my back and kidneys. I felt sharp twinges of pain over my left kidney and a dull aching and lameness in the small of my back. I felt all dragged out with a weakness and had no ambition left. The kidney secretions bothered me. I was in a bad way when I read about Doan's Kidney Pills and got them from Kirlin's Pharmacy. After using them I did not have the aching in my back nor any trouble arising from my kidneys excepting at times a slight tenderness over the left kidney. Doan's Kidney Pills are a splendid remedy and I am glad to let others know it."

## TEN MEN ROUT TWO HUNDRED.

A Squad of General Lawton's Scouts Enter San Miguel, and the Rebels Retreat—President Schurman's Farewell to Admiral Dewey.

Manila, May 15.—The civilian members of the United States Philippine commission are favorable to the meeting with a Filipino commission, which was suggested Saturday, on behalf of Aguinaldo, by Lieutenant General Lawton, who came to General Lawton under a flag of truce, bearing the proposal. It is thought by the American commissioners that the idea may have resulted from a recent meeting of the so-called Filipino congress at San Isidro. Definite information on this point, however, cannot yet be obtained, though the local Filipino committee, which is in close communication with the leaders of the rebellion, is doing its utmost to secure peace.

Ten members of Major General Lawton's band of scouts, under Major W. M. Young, the old Indian fighter, entered the town of San Miguel, about 15 miles north of Norzagaray, not aware of what place it was. They found 200 Filipinos there, but the rebels, taking the scouts for the advance of General Lawton's army, fled, after firing a few shots. Young and another scout were wounded and have been brought to Manila.

The Ninth infantry and a mounted battery of six guns have been sent to the front.

The uniform quiet now prevailing in Manila has led the authorities to relax the rule under which the city streets were cleared from 7 to 5:30 p. m., and last evening there was the largest and most brilliant assembly of pedestrians and people in carriages to listen to a band concert on the Luneta that has been known here since the Spaniards left.

Professor Schurman, president of the United States Philippine commission, gave a farewell luncheon yesterday to Admiral Dewey, at which Professor Dean Worcester and Colonel Charles Deady, of the commission, with General MacArthur, Mrs. Lawton and others, were present. The health of the admiral was drunk with the utmost cordiality.

### THE WOMAN WHO COUGHED

A Wreck From Grippe, Catarrh and Asthma.

RESTORED WITH BRAZILIAN BALM

I was known as "The Woman who Coughs," for I coughed incessantly. I was a school teacher till my health failed. Catarrh had eaten away the partition in my nose. It had produced Bronchitis, Asthma, dreadful Stomach troubles and weak kidneys. In fact it had gone all through my system, making me an easy victim for the Grippe which left me a wreck in mind and body. This was the condition the doctors left me in, after dosing me with opium, quinine, etc. Then I bought cough cures without end but they only made me worse, I was in despair till I got hold of Brazilian Balm and Toxicola Tablets. They acted like magic from the first, and in a few weeks I was cured and better than I had been in years. Talk about wonderful remedies, Brazilian Balm and Toxicola saved my life.

# DR. BRIGGS ORDAINED.

## The Noted Professor Now a Priest of the Episcopal Church.

### NO PROTEST WAS PRESENTED.

The congregation had evidently expected some of the objecting clergyman to make a scene in the church, but the ceremony was notably quiet.

New York, May 15.—In the Pro-Cathedral on Stanton street yesterday Rev. Dr. Charles A. Briggs, who was suspended for heresy by the Presbyterian assembly, was ordained a priest of the Episcopal church. He was ordained together with the Rev. Charles A. Sneeker, and the ordination ceremonies were conducted by Bishop Potter. The little church was crowded with people, and the ceremonies were notable for the quietness that prevailed. Those who expected, from the great outcry of the past three or four weeks, some sensational features were disappointed. There was no scene, no excitement, and no protest was filed at the beginning, during or at the close of the ordination.

The ceremonies were very long, commencing at 10:30 o'clock and continuing until late in the afternoon. If anything, the services were hurried a little, and the general communion which followed the ordination of the postulants or candidates tended to extend the time.

There was a large crowd about the little Pro-Cathedral church as early as 8:30 o'clock. This increased as the time for the ordination ceremonies approached.

After the Sunday school had finished its exercises the vicar, Rev. Dr. Paddock, was approached by Inspector

REV. DR. BRIGGS.

Cross, of the police, who held a conversation with him. Several policemen were outside the church and some in the church. The church does not seat more than 500 people, and there was about twice that number standing.

Bishop Potter drove to the church with the candidates for admission, Rev. Dr. Charles A. Briggs and Rev. Dr. Charles A. Sneeker. Before the ceremony Bishop Potter said he had no notice of protest, and had received no protest. He smiled at the thought of any of the objecting clergymen appearing in the church and making a scene. He, however, said that he had received a letter from a layman protesting against the ordination of Dr. Briggs, and as this letter was written under a misapprehension of the facts and law he had answered. He did not desire to give the candidate of the layman, who he said, was high up in the councils of the church. Inasmuch as the letter he himself had written in answer to it was general in its nature and set forth his position, he had no objection to making it public. The letter is a defense of Dr. Briggs' attitude.

Rev. Dr. Briggs was somewhat nervous, though he did not betray it in the church during the ceremonies. There was a semblance of nervousness in all the celebrants. There seemed to be a tendency to hurry through the ceremonies.

Precisely at 10:30 the organist began an organ voluntary. He had scarcely finished it when the opening strains of the processional were heard. After the choir came the vicar, Rev. Dr. Paddock, then the candidates, Rev. Drs. Briggs and Sneeker, their sponsors, Rev. Dr. Smith, Nelson and Osborne, and lastly the bishop. Rev. Dr. Briggs wore the stole of academical degree, as did also Rev. Dr. Sneeker. Bishop Potter wore his usual vestments.

The congregation stood during the processional. The candidates and their sponsors took seats which had been placed in a row in front of the chancel. Bishop Potter took a seat near the holy table and Rev. Dr. George William Douglas, who was to deliver the ordination sermon, Rev. Dr. Osborne, and the presbytery took seats on either side of the chancel. Rev. Dr. Douglas is an occasional preacher in Grace church, which was offered by the Rev. Dr. Huntington for the ordination. He lives in Tuxedo Park, N. J.

A simple service according to the Episcopal church was gone through, and then the rite of ordination in accordance with "the form and manner of ordaining priests" were begun.

After a prayer and singing Rev. Dr. Douglas delivered his sermon. In his invitation to the candidates Dr. Douglas spoke slowly and impressively. At the conclusion of the sermon of ordination Rev. Dr. Osborne read the litany. This was the most impressive moment arrived. The sponsors went forward and presented the candidates to the bishop. The candidates stood together, with their sponsors, before the bishop. After the postulants had been presented to the bishop and after those presenting them had given the usual assurance that they had been examined and found worthy the bishop rose from his chair and proclaimed a general invitation to any persons knowing "any impediment or notable crime" in the candidates to come forward and declare. Then followed a profound silence. People turned about as if expecting some one to rise up and make a protest. No one arose. There was no protest handed to the bishop and the crucial moment was over. Then the regular formula of ordination was gone through with more deliberation.

### Discovered by a Woman.

Another great discovery has been made, and that too, by a lady in this country. "Discovery" fastened its clutches upon her for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she languished incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose, that she slept all night; and with two bottles, has been absolutely cured. Her name is Mrs. Luther Lutz. This was written by Hamrick & Co., of Shelby, N. C. Trial bottles free at A. Waseley's Drug Store. Regular size 50c and \$1.00. Every bottle guaranteed.

# ALL WANT TO HONOR DEWEY.

## The Ships of Foreign Nations Will Salute Our Admiral.

Washington, May 15.—Admiral Dewey's home coming by way of the Mediterranean is likely to give occasion for distinguished honors from the navies of Europe, most of them being represented by extensive squadrons in those waters, and some of them having their chief naval stations at Mediterranean ports. Already Ambassador Cambon, of France, has called the attention of the authorities at Paris to the return of Admiral Dewey by way of the Mediterranean and the probable sailing of his flagship Olympia past the French naval ports at Algiers. These are opposite the British possessions of Gibraltar and Malta, and are easy and natural stopping places along that route. It is hardly expected that the admiral will touch at Toulon, the great naval depot of France. At the ports of French Algiers he will be accorded every honor due not only to his high rank, but to the universal esteem in which he is held by the naval fraternity.

The British authorities have taken no steps thus far to have the admiral stop at British ports, but it was stated today by one of the British officials that Dewey would be assured a most enthusiastic greeting if he stopped at any British station. In the event that the admiral can be induced to stop in England en route home, it is said that he will probably be met at Aden or Port Said by a British escort.

In all times and among all people beauty and love are associated. We all believe that Eve was beautiful. Esther found favor because of her comeliness. Love and jealousy are a word, by Helen of Troy made historic trouble for two nations. Nobody ever conceives an ugly Juliet. Heroines of romance are always beautiful.

Ideas of beauty differ but the one sort of loveliness that all agree upon is the beauty of health. No matter what her features, no sickly woman can be attractive. Sallow skin, sunken cheeks, pinched face, hollow eyes, lifeless lips—these are repellent. And they can nearly always be traced to the one cause—womanly weakness or disease. Almost all the ills of womanhood are cured if you put the feminine organism into healthy, vigorous condition. All sickness of women seems to involve these delicate organs and so no matter what the symptoms may be it is best to look there for the real trouble.

All such disorders are completely and permanently cured by Dr. Pierce's Female Restorative. It is designed for just this one thing and is the only preparation of the sort produced by a regularly graduated physician—a skilled specialist in the diseases of women.

Miss Maud Kenyon, of 133 Orange St., Los Angeles, Cal., writes: "I had been afflicted with my eyes for over a year with such a dreadful itching and inflammation that I could not use them for anything. Physicians had given me many different remedies which were like using so much water; they did not benefit me in the least. My mother desired me to write to Dr. R. V. Pierce at Buffalo, N. Y., and explain the condition of my eyes. I did so, and after following his advice, and using eight bottles of the Female Restorative, my eyes were cured. Medical 'Discovery' can say my trouble is entirely removed. My health was never so good as it is now."
